Overview of the American Government Structure

The United States operates under a federal system, meaning power is divided between a central federal government and individual state governments. The core structure is based on the Constitution, which establishes three main branches: the Legislative, Executive, and Judicial branches. This separation of powers ensures a system of checks and balances designed to prevent any one branch from becoming too powerful.

Key Government Institutions

The legislative branch is responsible for making laws and is composed of Congress, which is split into two chambers:

1. **The House of Representatives**: Consists of 435 members representing districts based on population. It initiates revenue bills and has the power to impeach federal officials.
2. **The Senate**: Comprises 100 senators, two from each state. It confirms presidential appointments, ratifies treaties, and holds impeachment trials.

The legislative process involves drafting, debating, amending, and passing bills, which then move to the President for approval.

Executive Branch

The executive branch is led by the President, who serves as the head of state and government, responsible for enforcing laws and overseeing the federal administration.

1. **The President**: Elected every four years, with a maximum of two terms. The President directs foreign policy, commands the military, and has veto power over legislation.
2. **Vice President**: Assists the President and presides over the Senate.
3. **Federal Agencies**: Agencies like the FBI, CIA, and Department of Homeland Security implement policies and manage federal programs.

The President also appoints Cabinet members and federal judges, subject to Senate confirmation.
